Soft Skills Teamwork, Problem Solving

Experience

PrepLeaf by Masai, Bengaluru, Full Stack Web Development (Trainee)	Aug 2023 - Present
<ul style="list-style-type: none">Completed 1500+ hours of hands-on MERN stack coding and project development.Developed full-stack applications, including e-commerce and real-time platforms, utilizing RESTful APIs.Integrated third-party APIs to enhance real-time data functionality.Utilized Git/GitHub for version control and implemented responsive UI designs.	

Projects

SkySense

SkySense is a clean and user-friendly website that shows live weather updates from around the world. Quickly check current temperatures, humidity, wind speed, and upcoming forecasts effortlessly, and more — anytime, anywhere.

- 🔗 **Deployed Link** : <https://sky-sense-ashy.vercel.app/>
- 📁 **Github Repo** : <https://github.com/Raghvendra-Singh-Bhadouriya/SkySense>
- Collaborated with peers for feedback and improvement, ensuring project alignment with user needs.
- Communicated project progress and challenges effectively, demonstrating strong verbal and written skills.
- Managed tasks and deadlines independently, maintaining high standards of professionalism and attention to detail.
- Adapted to new tools and technologies throughout the project, showcasing flexibility in problem-solving.
- Organized project files and codebase using Git, supporting a structured and efficient workflow.

Myntra

A stylish and responsive e-commerce website inspired by Myntra, focused on fashion, beauty, and lifestyle products. The platform offers an engaging shopping experience with a sleek and modern UI, enabling users to explore product collections and securely register or log in.

- 🔗 **Deployed Link** : <https://myntra-frontend-xk7s.vercel.app/>
- 📁 **Github Repo** : <https://github.com/Raghvendra-Singh-Bhadouriya/myntra-backend>
- Collaborated with peers for project feedback, incorporating suggestions to enhance user experience.
- Communicated project progress and challenges effectively during presentations and peer reviews.
- Demonstrated professionalism by managing milestones, deadlines, and iterative improvements independently.
- Adapted the website design to ensure responsiveness across diverse devices and screen sizes.
- Showcased strong attention to detail in implementing a modern, intuitive UI and secure authentication flows.

BigBasket

A responsive e-commerce website inspired by BigBasket, focused on groceries and daily essentials products. Features product listing, user Login and Registration, a user-friendly shopping experience, and a clean UI.

- 🔗 **Deployed Link** : <https://bigbasket-ft.vercel.app/>
- 📁 **Github Repo** : https://github.com/Raghvendra-Singh-Bhadouriya/Bigbasket_Clone
- Collaborated with UI/UX best practices to design a clean, intuitive shopping interface, ensuring a positive user experience.
- Demonstrated strong organizational skills by managing feature development and meeting project milestones independently.
- Adapted quickly to new technologies and frameworks, integrating React, Node.js, and MongoDB for a full-stack solution.
- Maintained attention to detail through thorough form validation and secure user authentication workflows.
- Communicated project progress and technical challenges clearly via GitHub documentation and version control.
